Multi-Family
Entry Door Systems

T.M. COBB CO

Where home begins.

You're in expert hands.

With a complete door system engineered with craftsman precision and backed by more than 60 years of industry experience, you can be confident that it will perform as exceptionally as it looks. Whether it's Classic or Contemporary – or somewhere in between – Therma-Tru offers a selection to complement the architecture of virtually any multi-family residential dwelling, hotel / motel unit entries, and more.

Builder
BRAND LEADER 2021

We're proud to be the leading entry door Brand Used Most* for more than 20 years, all backed by the industry's most comprehensive full system warranty.

Why T.M. Cobb?

We can help you make a lasting first impression with an Entry door that will fit your architecture, design preference, and budget! Not to mention we have been doing this for over 85 Years!

Wide Product Offering

Are you looking for a Bedroom Door, Pantry Door, Dutch Door, Patio Door, French Doors or an Entry Door? TM Cobb has what you are looking for!

Prompt Delivery and Service

We ensure your doors will be delivered on time, correct, and free of damage with our own fleet of all-weather trucks delivering daily from San Diego to San Francisco and all points in-between!

A Name You Can Trust

TM Cobb has been servicing our customers since 1935. We have over 85 years of experience and expertise in bringing the perfect door to the California market.

Quality Finishes

Finish Choice™ is our in-house finish system that creates the look and appeal you want for your entire entryway. We offer 22 paint colors and 10 stain colors that include a 10 year warranty.

Building stronger partnerships and better entryways.

"Builders rely on us to provide products that will perform. The warranty gives us confidence to offer Therma-Tru doors to our customers. That, and we've never had any problems with Therma-Tru doors. The product quality is consistent."

Kevin K., Overhead Inc. in Ohio
More than 25 years using Therma-Tru

"It's easy to partner with a manufacturer who can stand behind you because you feel you have a sense of comfort. You feel you've done your best job, the manufacturer has done their best job and it makes it easy for the customer to feel safe in their purchase."

Daniel B., Barefoot and Company in North / South Carolina
More than 10 years using Therma-Tru

"Therma-Tru is unique because they have an entire system that includes the door, the glass, the frame, the sill… everything has been quality tested for performance."

Bill D., Woolf Distributing in Illinois
More than 8 years using Therma-Tru

Table of Contents

Multi-Family Entry Door Systems

Therma-Tru offers door systems that are ideal for multi-family new construction and remodeling. Our doors deliver the durability, reliability and style you expect from Therma-Tru, with options to meet most national and local building code requirements.*

Discover an industry-leading selection of Fire-rated doors and Sound Transmission Class- (STC) rated doors, as well as doors with an elevated 10" bottom rail for Americans with Disabilities- (ADA) compliant applications.

The beauty of choice.

Choose from a variety of surfaces to complement the architectural style of the dwelling.

Fiberglass Door Selections

3 YEAR LIMITED **WARRANTY**

Classic Craft Series

Fir Grain

⑨ E

Designed to echo the grain of the largest species of American Hemlocks – the Western Hemlock tree – found in lush coastal rainforests of the Pacific Northwest.

Walnut Grain

⑨ E

Crafted to reflect the prized hardwood of the mighty Black Walnut trees, these doors feature a horizontal grain with natural movement accented by delicate arches and cathedrals.

Fiber-Classic® Mahogany Collection™

🔥 ⑨ ⑨ E
Deep Mahogany grain to complement rich wood tones.

Fiber-Classic® Oak Collection™

🔥 ⑨ ⑨ E

Natural Oak grain for a warm look and feel.

Smooth-Star®

🔥 ⑨ ⑨ ((◦ E

A smooth, ready-to-paint surface with crisp, clean contours.

Pulse® Fiberglass

E

A contemporary series of doors available in Mahogany- and Oak-grained fiberglass, or smooth fiberglass.

Steel Door Selections

1 YEAR LIMITED **WARRANTY**

Pulse® Steel

E

A modern series of doors available in a smooth steel surface.

Profiles™ Steel

🔥 ⑨ E

24-gauge steel with smooth surface and triple-shadowed panel embossments.

Traditions Steel

🔥 ⑨ ⑨ E

25-gauge steel with standard embossed smooth surface. All 8'0" doors are 24-gauge steel.

Door System Components

Have confidence in a door system made with genuine Therma-Tru® components to meet the needs of many applications. Therma-Tru offers glass and components designed for durability and enhanced security, helping protect what matters most.

Composite Door Frame

Therma-Tru composite door frame featuring Tru-Guard™ composite technology provides a rot-free solution engineered to work together with rot-resistant Therma-Tru doors and components.

▌ Delivers extra protection from the damaging effects of outside elements for peace of mind.

▌ Eliminates the risk of rot and wood-ingesting insects with a durable composite material that is virtually maintenance free.

▌ Rot-free door frame does not absorb moisture and resists mold, mildew and fungus.

▌ Mullions are reinforced with a co-extruded LVL core for added structural support and stability, and feature a composite-capped bottom to eliminate the risk of water absorption.

▌ Available in a ready-to-install white smooth option that includes a pre-inserted weatherstrip option for select sizes. Also available in buff grained options.

▌ Tested to withstand a minimum of 20-minutes of fire exposure with temperatures that reach more than 1,400 degrees Fahrenheit to meet most national and local code requirements.

▌ Impact-rated to meet high-wind and costal region codes and regulations.

Intumescent Weatherstrip
(For Fire-Rated Applications)

When exposed to fire, the intumescent weatherstrip expands to seal the door and frame, helping prevent fire, smoke and toxic gases from passing through.

▌ Designed to fit with Therma-Tru Adjusta-Fit 2 frame.

Adjusta-Fit® 2 Frame

Therma-Tru Adjusta-Fit 2 frame technology helps ensure an optimum fit and long-lasting performance. These frames are ideal for interior and exterior applications, including corridor openings and outside unit entries.

▌ Constructed with commercial-grade 18-gauge base frame; galvanized steel and factory-coated paint finish; and an all-aluminum, thermally broken threshold.

▌ 90-Minute positive-pressure Fire-rating, third-party certified by Intertek Warnock-Hersey.

▌ Standard 4-⅞" ANSI 115.1, or 2-¾" T-lip strike prep option.

▌ Choice of standard, public access or no-sill options.

▌ Minimum 22-gauge closure with 1" of adjustability, suitable for walls from 4"– 9-½" deep.

Public Access Sill with Thermal Break*
(For ADA Applications)

Meets code requirements for Americans with Disabilities Act- (ADA) compliant applications.

▌ All-aluminum construction.

▌ Designed to mate with our ADA bottom sweep to help seal the margin between the door and sill.

▌ Also available without thermal break.

*Door systems built with public access sills have little resistance to water penetration and have a potential to leak if installed exposed to weather. We recommend these systems be installed away from weather under large soffits or overhangs.
Therma-Tru®
Fire-Rated Doors

Therma-Tru offers an industry-leading selection of Fire-rated doors certified to carry the Warnock Hersey Mark. From smooth to wood-grained, explore a variety of products that meet most national and local code requirements for multi-family residential and hotel / motel unit entries.*

20-Minute Fire-Rated Fiberglass Doors

❚ Tested to withstand a minimum of 20-minutes of fire exposure with temperatures that reach more than 1,400 degrees Fahrenheit.

❚ Features a 20-minute positive pressure rating.

❚ Certified by Intertek, Warnock Hersey for mortise lock use and features an enhanced lock block to provide proper handleset reinforcement, combined with lock and hinge stiles that increase rigidity and stability.

45% LIGHTER**

Foam Core   **Concrete Core**

❚ More durable than steel, and resist dents, scratches and rust, making them ideal for high-traffic, heavy-use environments.

❚ Features full-length lock side blocking, as well as blocking for panic and closure applications.

❚ Ideal for hotels, apartments, office buildings and other applications with security locks and card readers.

Now constructed with a polyurethane foam core that reduces overall door slab weight by 45% for easier handling and installation.**

Additional Options

❚ Solid-panel steel wood-edge doors also available with the 20-minute Fire-rated label, starting on page 13.

For California Projects

Therma-Tru Fiber-Classic® and Smooth-Star® 20-minute Fire-rated fiberglass doors meet or exceed building codes and regulations specific to the state of California, including:

✓ California Wildland Urban Interface (WUI) requirements.

✓ California Air Resources Board (CARB) formaldehyde regulations.

✓ California State Fire Marshall test CA SFM 12-7A-1.
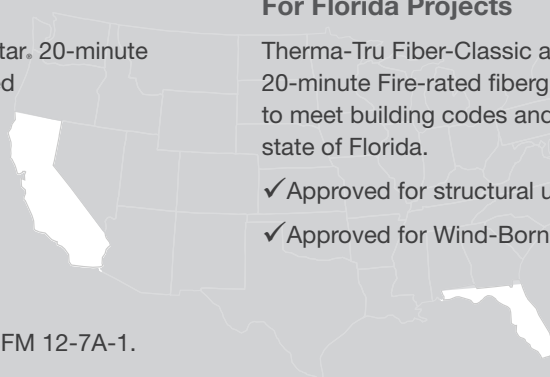

For Florida Projects

Therma-Tru Fiber-Classic and Smooth-Star foam core 20-minute Fire-rated fiberglass doors include options to meet building codes and regulations specific to the state of Florida.

✓ Approved for structural use in Florida.

✓ Approved for Wind-Borne Debris Regions (WBDR).

*To confirm fire door requirements in your jurisdiction, always check with your local building code authority.
**Comparison of 20-minute foam core Fire-rated door to a 20-minute concrete core Fire-rated door with similar style.
Note: To see the listing reports of third-party Intertek Warnock Hersey testing, visit www.thermatru.com/performancedata.

Elevated Bottom Rail Doors

Therma-Tru offers a variety of options to meet code requirements for Americans with Disabilities- (ADA) compliant applications. Available in the Classic Craft®, Fiber-Classic®, Smooth-Star® and Pulse® product lines, these doors offer durable, long-lasting fiberglass skins. Choose from a selection of on-trend door styles to meet the aesthetic needs of the project.

Elevated 10" Bottom Rails

Doors with an elevated bottom rail are designed to meet ADA requirements and feature a minimum 10" net smooth surface as measured from the bottom of the slab to the beginning of the panel detail. These slabs may also be cut out and paired with an assortment of stylish glass designs to create a wide variety of looks. For ADA compliance, door must be 3'0" wide.

ADA (Americans with Disabilities Act) and state and local building code accessibility require that swinging door or gate surfaces within 10" (254 mm) of the finish floor or ground measured vertically shall have a smooth surface on the push side extending the full width of the door or gate.
Elevated 10" Bottom Rail   Standard Bottom Rail
Public Access Sill with Thermal Break for ADA Applications*

- All-aluminum construction.
- Ramp slope meets Americans with Disabilities Act- (ADA) requirements.
- Also available without thermal break.

Additional Decorative Glass Options

Therma-Tru offers a wide selection of stylish and energy-efficient entry door options that may also meet your 10" bottom rail requirements. Please see your local Therma-Tru Sales Representative for more details.
*Door systems built with public access sills have little resistance to water penetration and have a potential to leak if installed exposed to weather. We recommend these systems be installed away from weather under large soffits or overhangs.

Noise Reduction Doors

Therma-Tru® Noise Reduction doors provide a commercial level of performance, while providing the look of a residential door system. Ideal for multi-use and urban in-fill projects located near sources of noise pollution, our Noise Reduction doors provide a Sound Transmission Class (STC) rating of up to 36. These ratings provide a standard industry accepted method for comparing the sound reduction effectiveness of door systems.

Therma-Tru Noise Reduction doors are available in our Smooth-Star® product line, which features crisp, clean contours that offer a more attractive and durable alternative to steel doors. And unlike steel doors, Therma-Tru Smooth-Star fiberglass Noise Reduction doors won't dent or rust. They also provide years of dependable service with safety and weather resistance built into every noise reduction system.
BTS Lite Frame

Handles temperature swings and extremes without warping, splitting, cracking or yellowing.
Glass

Choose laminated glass for additional security from forced entry.

Engineered Core

Securely laminated and bonded to the durable fiberglass door skin providing for a rigid and durable door assembly.

PrismaGuard®

Finished for Lasting Beauty

Handcrafted and professionally applied in a controlled environment, a PrismaGuard® premium finish is built to last, giving your customers confidence and peace of mind.

▮ Designed for optimal performance with Therma-Tru® fiberglass doors, composite door frames and door surrounds.

▮ Features enhanced durability to protect from everyday wear and tear.

▮ Backed by a 3-year limited finish warranty.

▮ Enhances the overall beauty of the entry with a nature-inspired color palette of premium stains and paints.

Tested to meet tough expectations.

PrismaGuard premium finish undergoes rigorous testing with specialized equipment to help ensure it delivers a consistent high-end appearance with a low-maintenance coating that preserves the door's color for years to come.

Durable Topcoat   Professional Application

PrismaGuard® Premium Stain

Bring the authentic look of wood to life with rich tones that add dimension and are designed to enhance the wood grains of Therma-Tru® fiberglass doors, composite door frames and door surrounds.

Shown on Classic Craft® Fir Grain

Wildflower Honey	Rustic Clay	Barley	New Earth

Autumn Harvest	Redwood	Mulberry	Acorn

Driftwood	Raven

❶ It starts with the realistic wood grains and deep embossments of a Therma-Tru® door, composite door frame or door surround.

❷ A base coat provides an even, consistent color across the surface of the door.

❸ A wiping stain enhances the base coat while adding dimension to reflect the natural beauty of wood.

❹ A durable topcoat enhances the high-definition color while protecting against scratches and color fading.

❺ A second application of the topcoat provides added durability and optimal sheen for a high-end look.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller for details on the PrismaGuard limited warranty and exclusions.

PrismaGuard® Premium Paint

Add a pop of color to Therma-Tru® doors, composite door frames and door surrounds, and tailor the look of the entry to make a beautiful lasting impression.

Alpine

Cypress

Granite

Ruby Red

Cabernet

Indigo

Chestnut

Onyx

❶ It starts with the smooth or wood-grained surface of a Therma-Tru® door, composite door frame or door surround.

❷ A base coat provides an even, consistent color across the surface.

❸ A durable topcoat enhances the high-definition color while protecting against scratches and color fading.

❹ A second application of the topcoat provides added durability and optimal sheen for a high-end look.

SAME-DAY® STAIN

Create the authentic look of real wood in just a few simple steps.

- Achieve professional-looking results with an easy-to-use, quick-drying formula.
- Colorfast stain resists fading, bleaching and yellowing to create a beautiful finish.
- Finish colors can be applied in a variety of shades to complement multiple home styles.
- Specially formulated for Therma-Tru® fiberglass composite door frames and door surrounds.

All-Inclusive Kit

Contains everything needed to stain a Therma-Tru fiberglass double door system or a single door with two sidelites.* Watch easy-to-follow instructions at samedaystain.com.

For Therma-Tru fiberglass doors. For complete details on the Same-Day Stain and topcoat limited warranty, go to samedaystain.com or ask your seller for more details.

Shown on Classic Craft® Fir Grain

| Light Oak | Natural Oak | Walnut | English Walnut | Mahogany | Cedar | Cherry |

*Actual coverage may vary based on product selected, application method and desired appearance.
Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller for details on the Same-Day Stain limited warranty and exclusions.
